

Basics & Settings SOP: How to Print GS1 Certificates

03/17/2025 8:24 am CDT

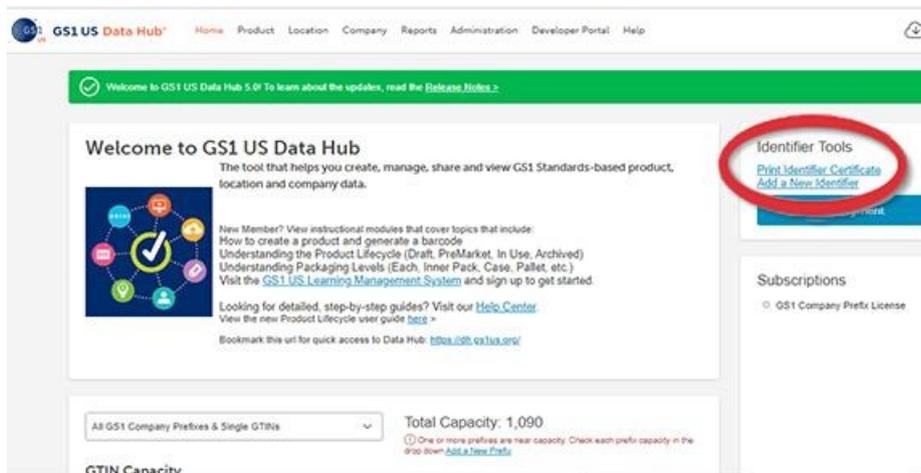

Who is this for? To individuals who need to print GS1 Certificates for reference purposes.

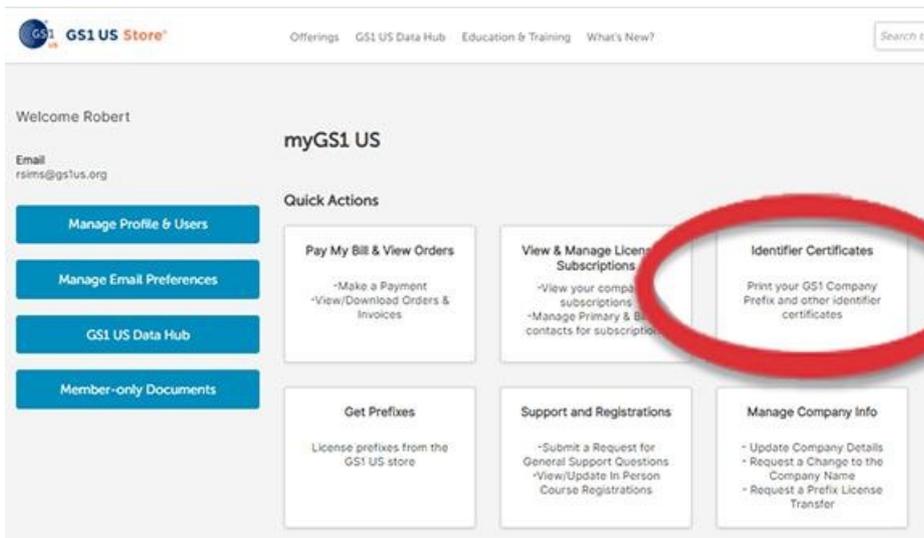

Objective: The purpose of this document is to help individuals on printing their GS1 Certificates

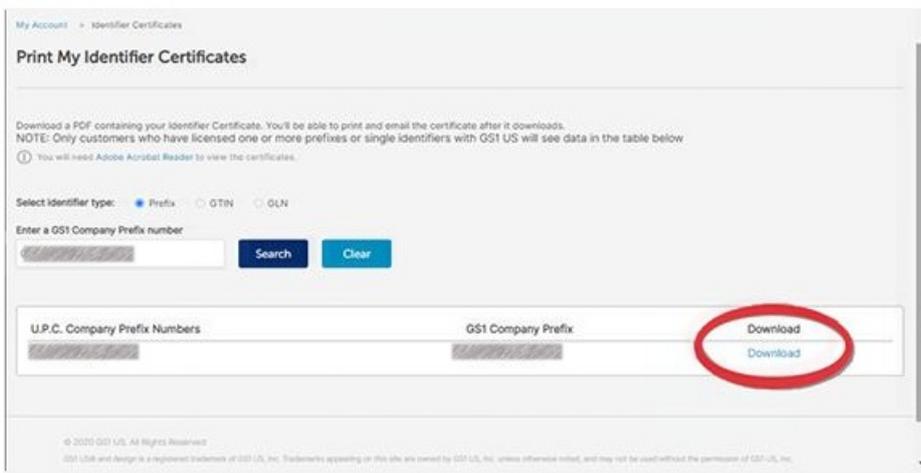

1. To print your GS1 Company Prefix or GS1 US GTIN certificate, first, make sure you have Adobe Acrobat Reader installed on your computer:
2. Visit the home page of [GS1 US Data Hub](#), login, and click the Print Identifier Certificate link under the "Identifier Tools" area:

3. The myGS1 (US) page displays. Click the header "Identifier Certificates."

4. You can search for a specific GS1 Company Prefix or GS1 US GTIN if you have multiple prefixes and identifiers. When you see the identifier in the results, click the "Download" link to open the certificate as a PDF file in Adobe Acrobat Reader.

5. Save the file to your computer for future reference.
