To create parentage in Walmart

1. Log in to Walmart seller central account. Go to <https://seller.walmart.com/>

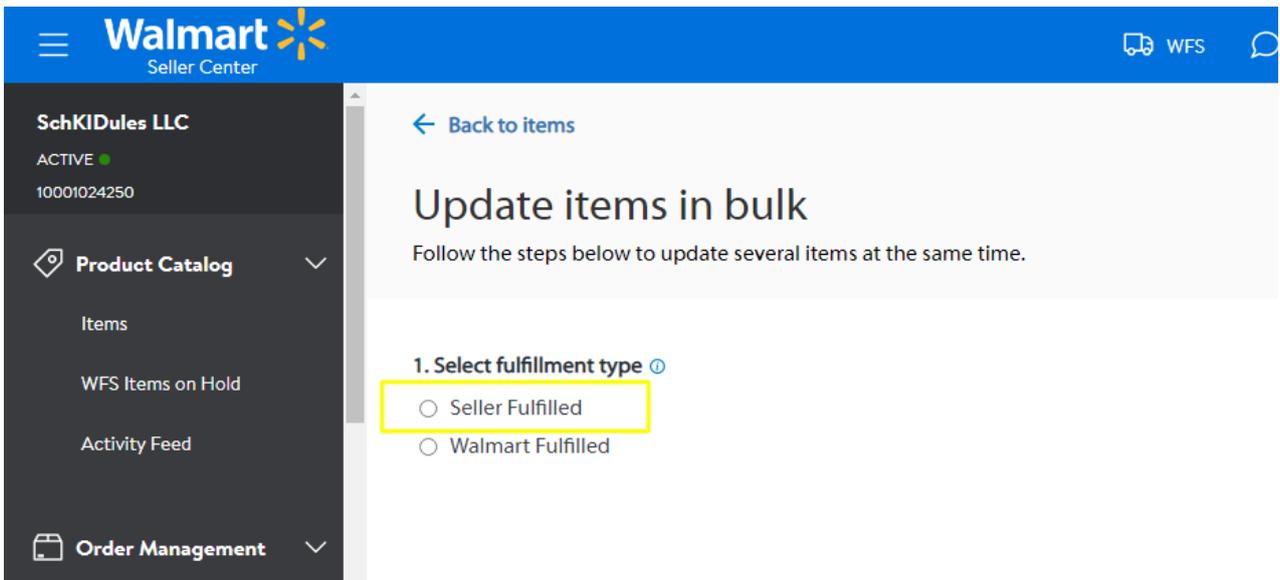

1. Download Maintenance Spec Sheet by going to **Items** under the **Product Catalog**. Click the **Update Items** found on the upper right corner and click the **Update Items in Bulk**.

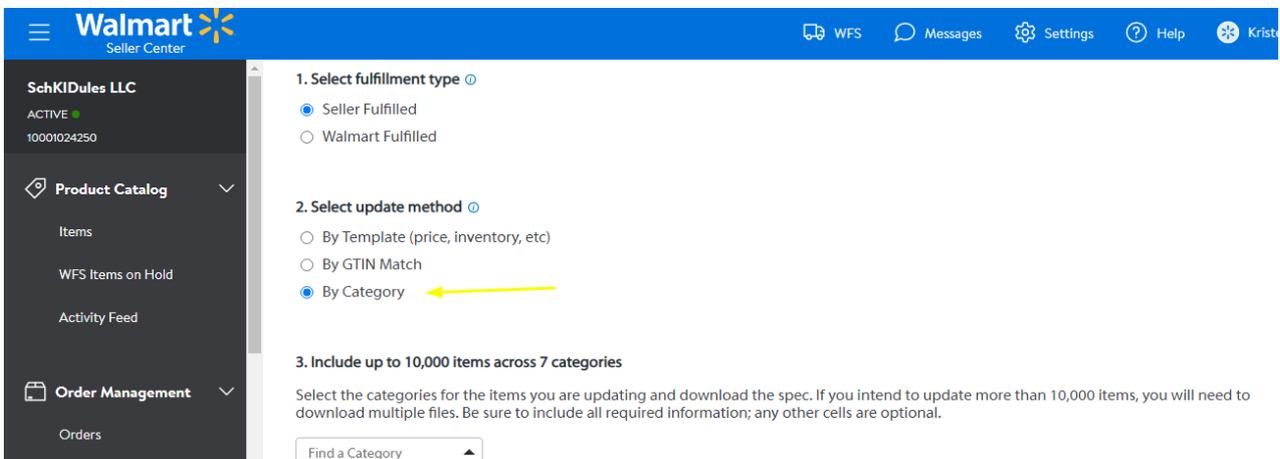

1. You will be redirected to the screen below

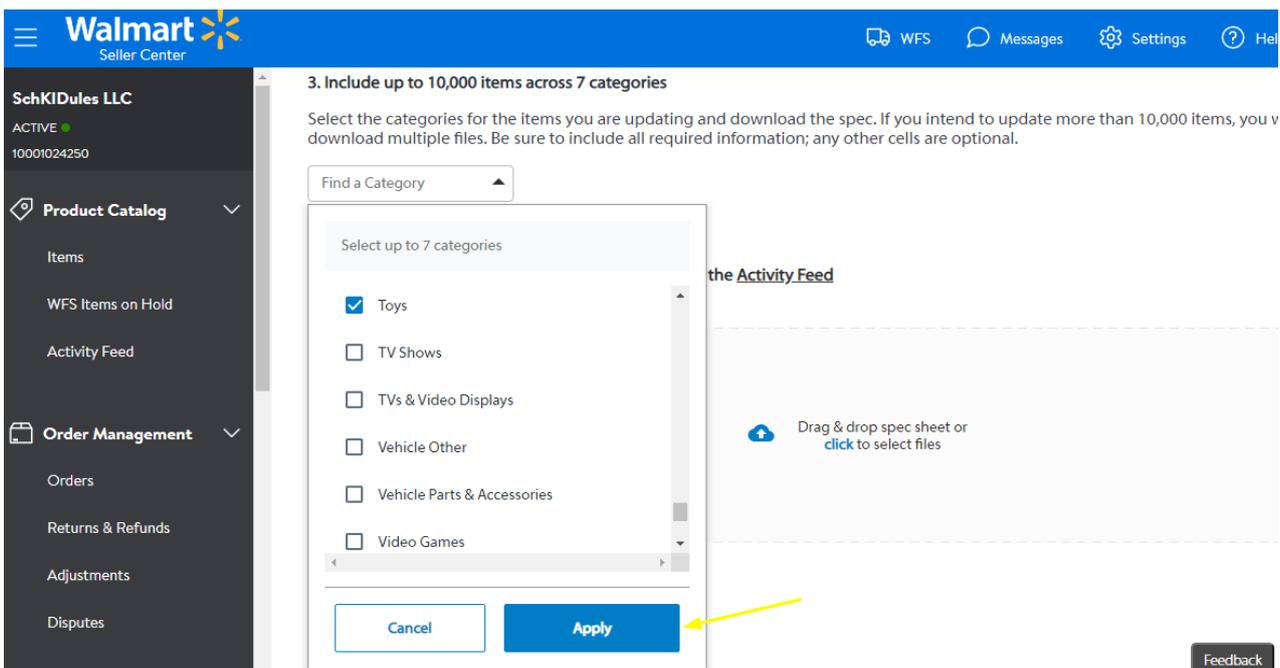

- Select fulfillment type: **Seller Fulfilled**

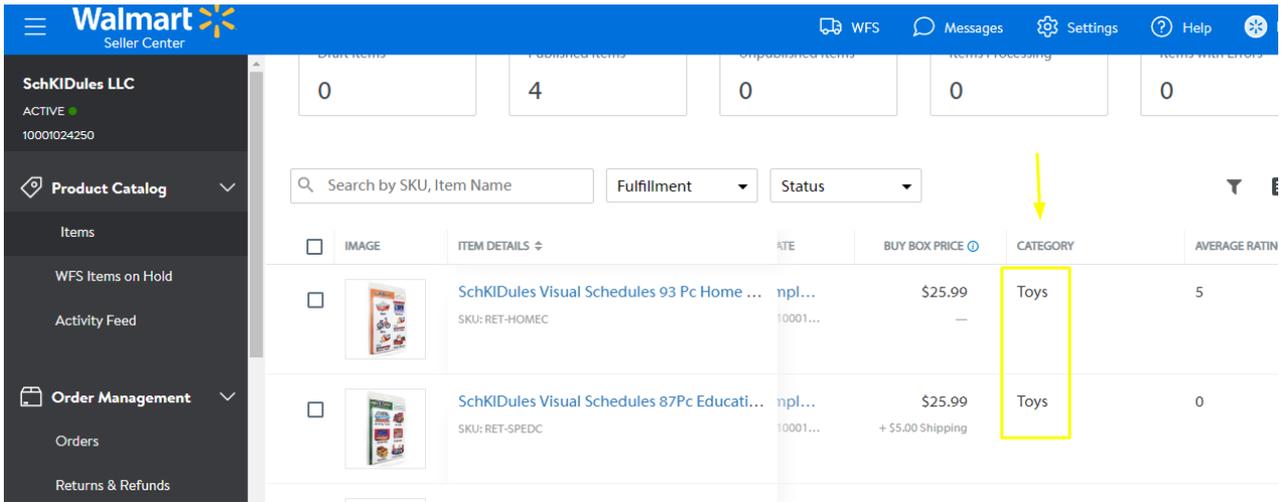

- Select update method: **By Category**

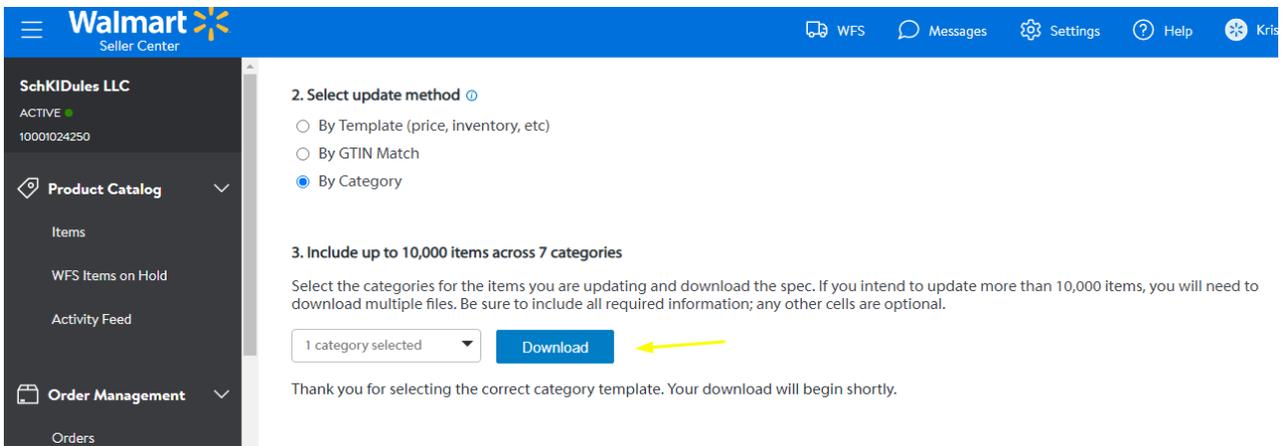

- Download the maintenance spec sheet.

To know what is the correct product category to download. Go to the **Items** section and check the category of the listing that needs an update.

1. After selecting the category, click **Download**.

1. Once the maintenance spec sheet is downloaded fill out the required attributes **SKU, Product ID Type, Product ID**, and supply values for these attributes

Variant Attribute Names (+)

- This is a variation type, for example, you choose *countPerPack* you have to put value for *countPerPack* column for each child. (see images below)
