1Password SOP: Chrome Extension Set-up and Login

09/10/2024 5:20 pm CDT

> ℹ️ Objective: To download, install, and setup the Chrome extension for 1Password.
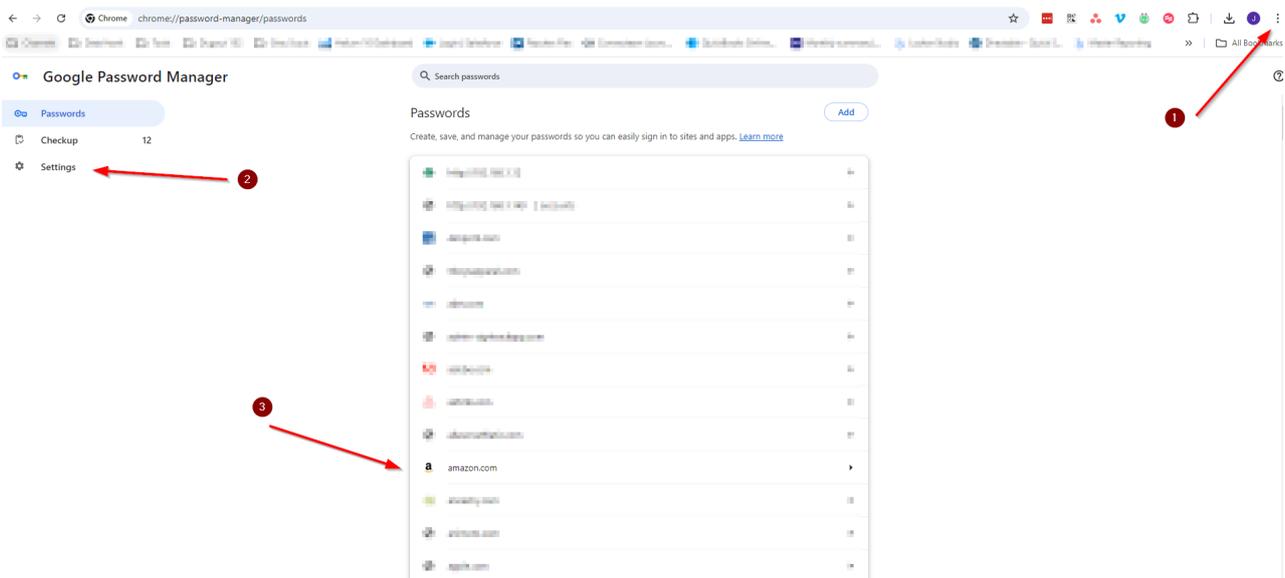

> ✅ Who this is for: Employee setup needing access to company logins through the 1Password manager.

Step 1: Head into Chrome Password Manager to remove all Amazon passwords (and other applicable) to avoid browser confusion with 1Pass.

To delete your passwords individually:

1. Select the Chrome menu ⋮ in the toolbar and choose **Passwords and Autofill** > **Google Password Manager**.

2. Select each saved password you want to delete, then choose **Delete**.
   You may need to the password you use to log in to your computer.

Chrome Extension install: https://chromewebstore.google.com/detail/1password-%E2%80%93-password-

mana/aeblfdkhhhdcdjpifhhbdiojplfjncoa

Follow the additional install steps in the video.
