

# Catalog SOP: Download a Dangerous Goods Status Report

10/11/2024 11:20 am CDT

**Who is this for?** This is for all individuals and sellers who want to know how to download a Dangerous Goods Status Report.

**Objective:** This Standard Operating Procedure (SOP) will help you understand how you can download a Dangerous Goods Status Report. Your dangerous goods status report gives you current information on the status of your FBA listings that are classified as dangerous goods (DG), including listings currently under DG review. Dangerous goods are also known as hazardous materials or hazmat. See examples of products that may be regulated as dangerous goods. The information in this report is refreshed once every day. Products that are not DG are not included in this report.

1. Go to the **"Reports"** tab on the top menu and select **"Fulfillment"** from the drop-down menu.

The screenshot shows the Amazon Seller Central interface. On the left, a navigation menu is open, with the 'Reports' tab highlighted in red. A sub-menu is displayed, and the 'Fulfillment' option is highlighted with a red box and a red arrow pointing to it. The background shows the main dashboard with various reports and a table of listings.

Date Created	Status Changed Date	Available	Inbound	Unfulfillable	Reserved	Estimated fee per unit sold	Price and shipping cost	Sales Rank	Feat
04/21/2023 10:18:18	04/21/2023 10:18:22								
04/10/2023 15:15:22	04/10/2023 15:15:31	10				\$5.39	\$30.95 + \$4.95		
Migrated Template Featured Offer: \$33.15 + \$0.00   Match Lowest price: \$33.15 + \$0.00   Match

**Overview**

This information pertains to FBA Sellers only.

Welcome to the Fulfillment Reports page. All fulfillment reports can be found in the left-hand column. Reports are split up into Inventory, Sales, Payments, Customer Concessions, and Removals. Read below for informative tips and help on getting the most out of your reports.

You can download reports as comma-separated values (.csv) or in text (.txt) format. Using .csv format will let you open reports in a spreadsheet. However, the leading zeros from MSKUs, ASINs, and FNSKUs will be dropped. If you require the leading zeros, you can download the file in .txt format. For more information on how to import a .txt file, review the help content for the spreadsheet application that you use.

For help with issues not addressed in the fulfillment reports, contact [Seller Support](#)
