

Catalog SOP: Feed Processing Error Code - 90114

10/08/2024 1:24 pm CDT

Who is this for? This is for All individuals who are encountering 90114 errors.

Objective: To ensure that all are able to address the 90114 error whenever it appears in the processing report.

Error Code: 90114

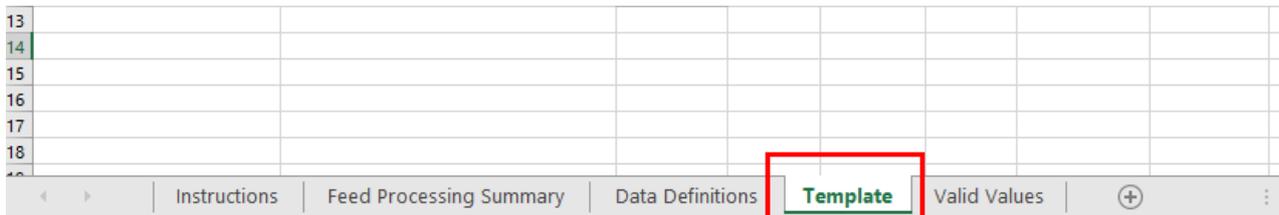

Error Message:

- The "VALUE_OR_ATTRIBUTE" is lower than the minimum allowed.
- The Your Price field contains an invalid value: 0.00. The value "0.00" is lower than the minimum allowed: 0.01.

Type of error	Error message example
90114	The Your Price field contains an invalid value: 0.00. The value "0.00" is lower than the minimum allowed: 0.01.

Instructions:

1. Check the 'template' tab of your processing report.

2. Search for the names of affected attributes in the Excel column. Typically, errors are indicated in a dark yellow color, and the precise columns are specified in the feed processing summary tab.

Affected Attribute Names (Excel Column)	Number of errors
Your Price (L)	1

Do not use only. Do not modify or delete the top 3 rows.

Manufacturer Part Number	Category (item-type)	Your Price
SET-1-1540	business-stamps	0.00
SET-1-1540	business-stamps	8.95

3. Return to the flat file you generated and correct the mistake by updating the information.
 - Parent Listing - The field 'Your Price' should remain unfilled as this listing is not available for purchase.
 - Child Listing - Ensure that the price you assign to each listing is not below the minimum allowable price of 0.01.
4. After you have updated the flat file, proceed to upload it again and monitor the upload status.
