

Catalog SOP: Feed Processing Error Code: 98888

10/08/2024 2:08 pm CDT

Who is this for? All individuals received error code: 98888 while updating a listing using a flat file.

Objective: To ensure that all are equipped to resolve error code 98888, they need to understand how to troubleshoot it.

Error Code: 98888 means that the fields are "Required" not "Optional".

Error Message:

marketplace	error-code	error-type	error-message
US	98888	Error	batteries_required' is required but not supplied.
US	98888	Error	supplier_declared_dg_hz_regulation' is required but not supplied.

Instructions:

For **batteries_required**, just put "No" on the cell if the ASIN is not a battery or doesn't require batteries. If it is a battery or requires batteries, put "Yes" but you will have to submit a sheet for battery and battery-powered products. You can download this from this [link](#).

Document types

Safety data sheets (SDS) are for chemical-based products that might be regulated as dangerous goods (see [examples of common dangerous goods](#)). If you cannot obtain an SDS for your product and it does not contain any harmful chemicals (such as alcohol, acid, or sodium), you can upload an exemption sheet for products without harmful chemicals. Download the appropriate template on the right side of this page.

Battery exemption sheets are for products that are, contain, or are sold with batteries (see [examples of common dangerous goods](#)), or that are otherwise powered. Download the appropriate template on the right side of this page.
