

Catalog SOP: Error 99001 and 90041

10/08/2024 2:37 pm CDT

Who is this for? All individuals who are encountering 99001 and 90041 errors.

Objective: To identify mandatory attributes, supply valid values for mandatory attributes, and enable the successful upload of the flat file.

If mandatory attributes are missing or an incorrect value is supplied in your feed file, you will receive error 99001.

To identify these mandatory values, open your feed file template, then input the product type category. The selected category's required fields will be marked in red, as seen below.

2. Open the downloaded report excel file to determine the error code. Read the error message.

Below is the sample 99001 error message.

Type of error	Error message example	Affected Attribute Names (Excel Column)	Number of errors
99001	A value is required for the "Model Name" field.	model (U), Model Name (V)	8
Total number of errors			8
Total errors and warnings			8

3. Below is a screenshot of the processing report with the 99001 error. Locate all cells in the template that were highlighted in orange. This would tell you that the value stored in these fields is either invalid or missing.
