# Log into Skustack

04/09/2025 12:46 pm CDT

## Overview

Skustack is a rich and comprehensive tool, specifically designed to help you manage various aspects of your day-to-day warehouse processes. It allows you to conveniently generate login QR codes for yourself or any other users of the application, among many other functionalities, making it easier to handle tasks related to user authentication and access control.
To access the Skustack application, you must have the **Is SKUStack User** setting enabled on the Employee Details page for your account. This applies to both **Client Admin** and **Employee** accounts.

---

## Log In

There are two ways to log into the Skustack app:

- With your **Credentials**.
- With a **QR Code** (2D Barcode).

If you're having issues logging in on your device, refer to these troubleshooting steps and common solutions.

### With Credentials

To log in with your credentials, follow the steps below:

1. Open the app — the login page will load by default.
2. Enter your team name, username, and password.
3. Tap **Login**.
4. You will be prompted to set the warehouse in which you will be using the app. Tap the warehouse drop-down to see all available warehouses. Select a warehouse and tap **Select**. All activity on the app will now be restricted to bins in the selected warehouse.
5. Now you can use the app.
6. The default settings on the app are tailored to standard warehouse behavior. You can customize these settings if you choose. Settings are explained here

### With QR Code

You can also log into Skustack with a QR Code:

1. On the login page, tap **Login with QR Code**.
2. The system will prompt you to scan a 2D Barcode.
3. Use your barcode reader sensors or tap on the barcode icon to use a camera instead.

To generate the 2D Barcode:

1. Go to **Settings** > **Server**.

2. Enter your credentials.
3. Tap **Print Barcode**.

Prior to printing a 2D Barcode from your device, make sure your Printer Settings have been configured to the correct printer.

---

# Overview

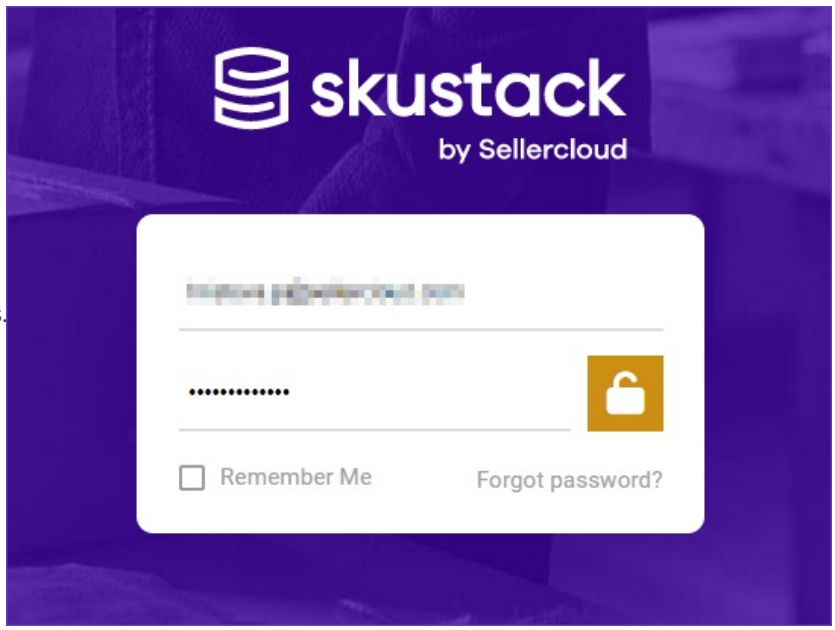
Skustack is a rich and comprehensive tool, specifically designed to help you manage various aspects of your day-to-day warehouse processes. It allows you to conveniently generate login QR codes for yourself or any other users of the application, among many other functionalities, making it easier to handle tasks related to user authentication and access control.
To access the Skustack Admin portal, you must either be a **Client Admin** or have sufficient **Employee** permissions.

---

# Log In

Once your Skustack access is granted, you can log in for the first time:

1. Navigate to the Skustack Admin portal at **https://xx.skustack.com** (replace "**xx**" with your **server ID** or **team name**).
2. Enter your login credentials.



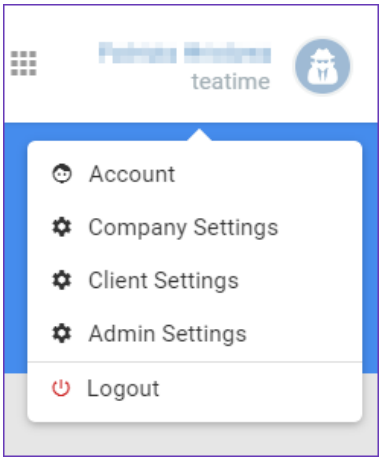
3. Click the **Lock** icon.
4. Now you can take advantage of all the robust features that the Skustack Admin provides.

---

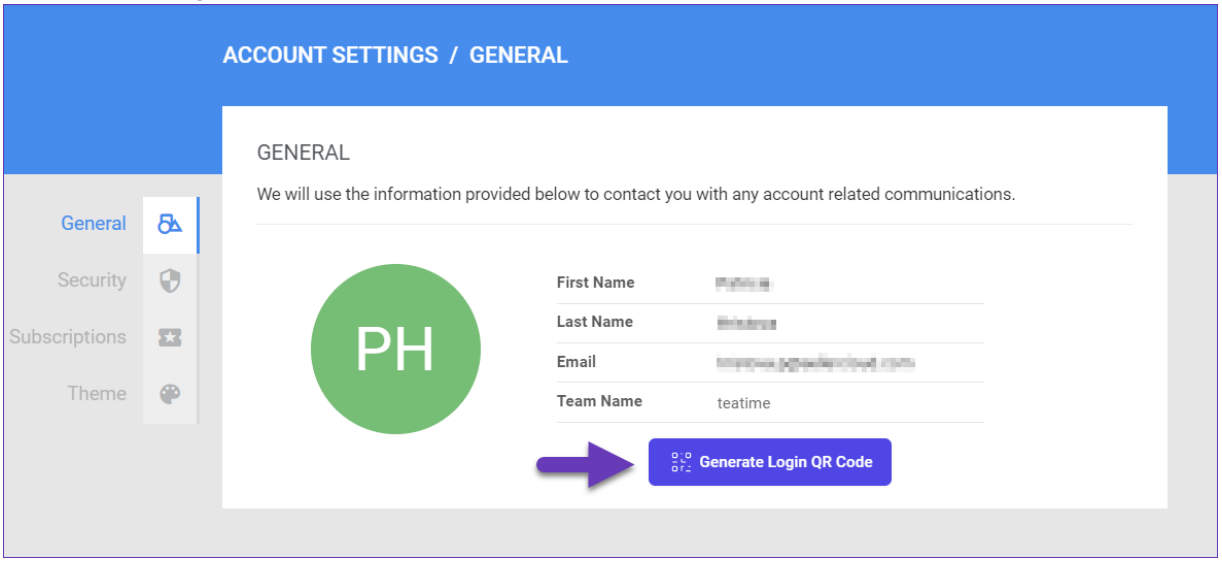
# Generate QR Code

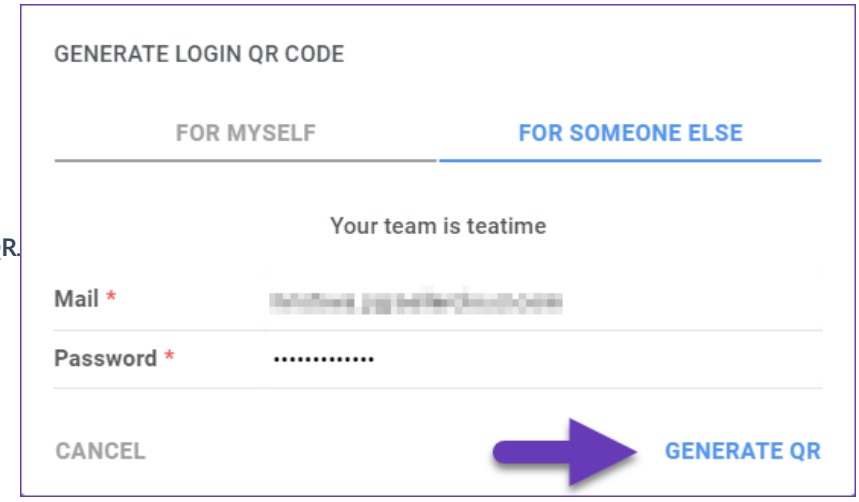
To generate a QR code:

1. Click on your account's name in the upper right-hand corner and select **Account**.



2. Navigate to the **General** panel.
3. Click **Generate Login QR Code**.





4. Choose whether you want to generate the code for yourself or someone else.
5. Enter the required email address and password fields.
6. Click **Generate QR**.
