

# Clear Cache

04/09/2025 12:48 pm CDT

## Overview

In some cases, you may need to clear the Skustack cache in order to refresh and repopulate the data. This is often needed when switching from a non-bin enabled warehouse to a bin enabled one, or when you are [facing login issues](#).

---

## Clear Cache

To clear the app cache:

1. Select the **Menu** icon > tap **Logout**.  
  
or hit the **Back** button twice.
  2. Select the **Menu** on top and click on **Settings**. Go to **Server** and tap on the **Trash** icon on the top right.
  3. This will clear the cache and refresh the warehouse data. You will be prompted to sign in again.
