## View Bin Movements

The Skustack app lets you view movements either by bin or by product. To do that:

1. Navigate to the **Bin** tab > **Bin Movements** module.

2. Tap the **Search** icon.
3. You can search by bin, SKU, or both. Note that at least one of those values must be selected.
  - a. If you search by bin only, all products in the bin will be displayed. You can then filter by product using the drop-down menu at the top.
  - b. If you search by product only, all bins with that product will be displayed. You can then filter by the bin using the drop-down menu at the top.
  - c. If you search by both bin and product you will only be able to change the product filter.
4. Filter by movement type by selecting one of the available options from the dropdown menu.
5. When viewing a product, you can also see a log of all its bin movements. This log includes details such as the type of movement, the quantity involved, and the resulting total within the bin.

Within the Skustack Admin portal, you have the option to view movements based on different criteria. You can choose to view movements by bin, by product, or access a comprehensive summary of all movements.

## By Bin

1. Navigate to the Skustack Admin portal at <https://xx.skustack.com> (replace “xx” with your server ID or team name).
2. Enter your login credentials.
3. On the left, select **Bins > Manage Warehouse Bins > Search** to see all bins or filter by a specific **Warehouse** and **Bin**.
4. Click on your desired bin.
5. Go to **Toolbox > Movements**.
6. All movements for the selected bin will be displayed.
