Channel Invoice Filters and Columns

The table below describes each of these filters, and the sortable grid columns with your filtered search results:

FILTER: **DESCRIPTION**

Company Find channel invoices for a specific company.
Find channel invoices for a specific [channel customer](#).

Channel Only channels that are enabled for the selected company will appear in this list; however, Local Store and Wholesale always appear for any selected company because you can have orders for those channels without enabling them in Sellercloud.

Date From and To Find channel invoices within a range of orders' ship dates.

Invoice ID Find a single channel invoice by its ID (the auto-created number for the channel invoice).

PO/Deal# Find a single channel invoice by its PO or Deal number.

- Reference #** Find a single channel invoice by the number used to cross-reference it with your own internal invoicing system.
- Amount** Find channel invoices by their grand total.
Find channel invoices by their exported status to QuickBooks (All, Yes, No).

QuickBooks* See the [QuickBridge settings for posting channel invoices](#) to QuickBooks.

*Only shown if **Enable QuickBooks Workflow** is selected in the Client Settings.
