

Managing Saturday Delivery in Shipbridge

04/30/2025 3:10 pm CDT

Overview

Saturday Delivery lets you stretch your business week even further. A package will be delivered to a recipient on Saturday, rather than the usual business days of Monday-Friday.

Saturday Delivery can be a great addition to your shipping arsenal if you need to ensure that some packages arrive on Saturday. In this article, you will learn how to activate and configure Saturday Delivery in Shipbridge.

Activate Saturday Delivery in Shipbridge

For Saturday Delivery of air and international packages, you must affix a Saturday Delivery sticker to each shipment or package. Both UPS and FedEx offer Saturday delivery for certain shipping services. See the [complete](#) list of services below. When selecting a qualifying service, you can check the option to opt for Saturday Delivery.

You may need to activate the column in the Customize Interface window.

1. Go to **Menu > Customize Interface > Unshipped** tab.

SellerCloud - ShipBridge v5.3.9.1 .NET Framework 4.5 (64 bit)

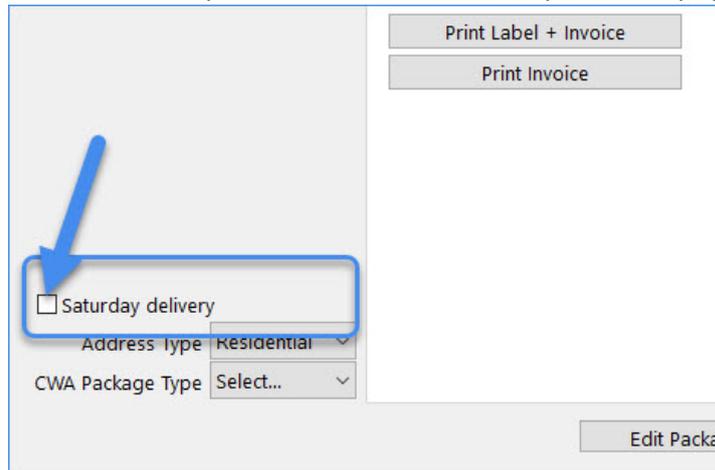

The screenshot shows the 'Unshipped' tab in the Shipbridge interface. At the top, there are 'Menu' and 'Help' options. Below that is a 'Show filters' checkbox which is checked. To the right of this are several filter fields: 'SKU:' with an empty text box, 'Order ID(s):' with an empty text box, 'Name:' with an empty text box, 'Channel:' with a dropdown menu set to 'All', 'Company:' with a dropdown menu set to 'All', 'Date Range:' with 'From' and 'To' checkboxes and date pickers set to '02.11.2020'. To the right of these are 'Location:' with a 'LIKE' dropdown and an empty text box, 'Carrier:' with a dropdown set to 'All', and 'Service:' with a dropdown set to 'All'. Further right are buttons for 'Preprint Invoices' and 'Ship and Print Labels'. Below these are several more dropdown menus: 'Invoice:' set to 'All', 'Destination:' set to 'All', 'Rush Orders:' set to 'All', 'Customer Note:' set to 'All', and 'Kit:' set to 'All'. At the bottom of the filter section, there are links for 'Showing 0 of 15496 orders', 'Refresh Existing Orders', 'Download New Orders', 'Advanced Filters are INACTIVE', and 'No labels printed yet'. Below this is a table header with columns: Order ID, Source Order ID, Weight (lbs), Weight (oz), Height, Width, Length, and DeclaredValue.

2. In Shipbridge, this option will appear when one of the qualifying services has been selected. In the regular shipping

grid, the option will appear as a column in the grid.
